From Your Executive Director

My father is 85, and my mother is 83. They have been married nearly 66 years. They have dealt with a few health issues, but overall they are in terrific shape. They live on the same farm where I grew up, and are able to lead active and independent lives. Fortunately, they also live in a neighboring state that does a reasonably good job of making available quality health care services for seniors. Do you know where Indiana ranks among states for long-term healthcare services for seniors?

**Dead last.** According to the Indiana Association for Area Agencies on Aging, our state ranks 51st in the nation, behind even the District of Columbia. We may not feel the impact of that as acutely here in Columbus, but it is staggering to think that Indiana could be last in anything. Here especially, we dedicate our resources to industry, education, architecture, the arts, and our quality of life, yet we live in a state that does such a poor job of meeting the long-term healthcare needs of seniors. If we ranked last in almost any other category, there would be a state-wide push to change our ranking, yet most people aren’t even aware of the situation.

**This fact drives our mission.** Now, more than ever, we have to give seniors every opportunity to lead healthy, independent, and meaningful lives. The work that we do here at Mill Race Center and the Pitman Institute is crucial for the health and welfare of seniors. It is more than recreation, or socialization, or helping people to fill their time. For many, it is a matter of life and health.

Dan Mustard
Executive Director

New Membership Information

We will be offering an auto debit option (one year commitment) for those who wish to pay a small monthly amount, rather than a full membership at one time. We will still be offering a six month membership option to be paid twice a year. The full year membership for 2018 will be $80 or $7.50 if you use auto debit. A six month membership will be $45. Dues for those age 85-89 will be $35, and our members who are age 90 or above will continue to be free. Our goal is for membership dues to cover 10% of our operating costs annually. The remainder of our expenses are covered by event fees, donations and fundraisers, our annual conference, grants, and rentals. Scholarships are available for those who may need assistance with the annual dues. Please see the yellow insert inside this newsletter to sign up for auto debit option, and to become a friend supporting Mill Race Center.

Reflexology @ MRC!
Thursday evenings from 4:00-8:00pm
Reflexology is a healing art based on the premise that there are reflex areas in the feet and hands that correspond to all of the glands, organs, and parts of the body.

If a practitioner finds sensitive areas on your hands or feet, he/she should work them gently. Reflexology should be a pleasant, relaxing experience. Light touch will be just as effective as deep pressure because reflexology works nerves, not muscles.

Leslie Dyar, a certified reflexologist who received her training at I.U.P.U.I., is available for 30 and 60 minute sessions at the MRC on Thursday evenings from 4:00-8:00pm. All sessions are by appointment.

Prices are as follows:
30 minute session: $20 for MRC members, $25 for non-members. 60 minute session: $40 for MRC members, $50 for non-members. To schedule your 30 or 60 minute session, call Leslie at: (317) 507-3224. Payment at session. Cash and checks only.

University Day

Current Events • Relevant Discussion

The Pitman Institute for Aging Well and IUPUC have partnered to offer University Day. It’s one day, packed with some of the latest information on relevant topics, and presented by IUPUC professors. Keeping your mind active and learning is one way to age well!

Thursday, November 16, 2017

Columbus Learning Center - Summerville Room
4555 Central Avenue - Columbus, IN

Session One:
Sustainability and Environmental Change
Presented by: Dr. Luke Jacobus, Division of Science Biology
Associate Professor

Learn how IUPUC is contributing to local and global understandings of our changing environment and how we choose to react to that change. Among a variety of activities, we are creating interactive gardens at schools and conducting animal diversity research funded by the National Science Foundation, reaching audiences ranging from local school children to scientists around the world.

Session Two:
What’s The Future Look Like for Diesel Engines?
Presented by: Dr. Tom Lawrence, Division of Mechanical Engineering Director; Assistant Professor

Participate in an engineering “big picture” discussion on the future of combustion engines that gives a broad view of power engineering both for stationary power generation and transportation. Thermodynamic basics, environment, and social priorities will be discussed along with energy resources, “sustainable energy”, and new technological developments. Amidst this background, trends in diesel development and future use will be discussed.

Session Three:
Discover 3D Virtual Patients and Learn How New Technology is Shaping Today’s Education
Presented by: Shannon Love, MSN, RN, CMSRN, CHSE
Director, Simulation Center; Clinical Assistant Professor

Find out more about IUPUC’s Nursing program’s implementation of virtual reality simulation. It’s the first of its kind learning tool in the Midwest and replaces physical simulation mannequins. Nursing students are learning from high-definition, 3D virtual patients projected onto a hospital bed.
