BINGO

Evening BINGO on Thursday, January 27. Early bird starting at 4:00PM.
There are changes coming to the way that we care for older adults in Indiana. I currently serve as the Secretary of the Indiana Commission on Aging which allows me to have a front row seat to the work that is underway at the state level. The staff members of the Division of Aging are working extremely hard to meet the challenge of providing care for seniors, since there are not only historic numbers of older adults among the Baby Boomer generation, but they are also living longer. We simply don’t have the infrastructure to provide the care that could be necessary in the next few years.

Let’s start with a few facts:
- 90% of Hoosiers want to live in their homes until they pass away. Only 30% of Hoosiers get this wish.
- The annual cost in Indiana for assisted living is $38,700, a nursing facility is $115,158 (private room) and $87,053 (shared). The average annual cost for in-home care is $49,764.
- Medicare doesn’t pay for assisted living; 90% of assisted living in Indiana is private pay, so Medicaid is 10% of the total assisted living market in Indiana.
- 95% of people over age 40 do not have long term care insurance.
- The goal of the state is to enable 75% of the individuals who meet level of care for long term services and supports (facility-based care) to instead receive home and community-based services. The intention is to have this in place by January of 2024.

The state took a similar approach to providing services for people with disabilities, as we moved from institutional care to community-based settings. Many Hoosiers with disabilities were able to move into shared homes and received services from trained staff. It allowed folks to live in their community in the least restrictive environment. This could very well be the model for care for older adults.

What can we do individually as we move into this new chapter in Hoosier healthcare? I would suggest that you become more knowledgeable about dementia and Alzheimer’s. Educate yourself on ways to interact with and include persons with memory loss into everyday activities. We are a stronger community when we include everyone. Visit [https://www.dementiafriendsindiana.org/](https://www.dementiafriendsindiana.org/) for more information.

Explore your options for long term care insurance. Check out the Indiana Long Term Partnership Program, which is an agency within the Department of Insurance. “The Indiana Long Term Care Insurance Program (ILTCIP) is an innovative partnership between the State of Indiana and private long-term care insurance companies. Indiana has taken the lead in helping residents protect their hard-earned savings from the high cost of long-term care.” More information can be found at [https://www.in.gov/iltcp/](https://www.in.gov/iltcp/)

Most importantly, learn how to Age Well. The dimensions of wellness approach that we use at Mill Race Center is a good foundation for healthy aging. The average life expectancy of Hoosiers is 77 years. The average age at which our members pass away is 86, and we have more than 100 active members who are over the age of 90. Join us and explore the many ways that you can live a longer and healthier life.
